METHODS MACHINE TOOLS ANNOUNCES NEW DEALER FOR UPPER MIDWEST.

Sudbury, MA U.S.A. (July 22, 2013) – Methods Machine Tools, Inc., a leading supplier of innovative precision machine tools, automation and accessories has appointed Concept Machine Tool (Minneapolis, MN & Delafield, WI) as distributor in the Midwest U.S. covering Minnesota, Iowa, North and South Dakota, Nebraska and Wisconsin, effective July 1st, 2013. Concept will represent Methods for FEELER High Performance Machining Centers, Nakamura-Tome Multitasking Turning Centers, FANUC RoboDrill Vertical Machining Centers, KIWA-Japan Vertical and Horizontal Machining Centers and metrology solutions including VisionGauge® Digital Optical Comparators (patents pending). (<http://www.methodsmachine.com>)

“We are pleased to have Concept Machine Tool on-board,” said Mr. Dave Lucius, Vice President of Sales for Methods Machine Tools, Inc. “Concept’s team of highly qualified and experienced engineers, field service technicians and in-house support staff will help us deliver the best machines, technology and applications expertise to our customers.”

Concept Machine Tool was founded in 1974 and is owned by Mr. Craig Conlon, President & CEO and Mr. Ken Norberg, President of the Metrology Division. Concept is a full service machine tool dealer who brings together a dedicated and winning combination of machines, people, facilities and processes. Their experienced personnel and comprehensive services ensure that machine tool orders are fulfilled and installed on time to meet their customers’ application requirements, as well as provide continuing service and support.
